Education

Bca. Computer Application

2020-2023

Gitam University
AP. India

BSc. Computer Science

2014-2018

University of Ilorin
Kwara. Nigeria

Certifications

Java MasterClass-Tim Buchalka (Udemy)	2024
Data Structure & Algorithm in Java -Skillsoft (Vodafone)	2024
Web Fundamental Development (Vodafone)	2024
Google Project Management: Professional Certificate	2023
AWS Cloud Practitioner Essentials	2021
Microsoft Certified Trainer (MCT)	2021
Introduction to TCP/IP (YONSEI UNIVERSITY)	2021
Data Science and Analytics	2021
Customer Support Data Analysis (COURSERA)	2021
Mobile Application Development (ACM)	2020

Technical Skills and Competences

Full Stack Developement

Front End: HTML, CSS, JavaScript, SASS, SCSS, LESS, React, Angular, jQuery Bootstrap, REST, GraphQL, AJAX/API, Responsive Design, WC3, flutter, Laravel, wordpress, Tailwind css, Framer

Back End/Programming: Java, NodeJS, PHP, Express, IIS, C#, Webhooks, Dart, C++, typescript

Database: NoSQL Apache, SQL, PostgrwSQL, Firebase, PineonDB, Mongoddb, MySQL

Platforms: Amazon AWS, Linux, .NET Windows, Cloud, Automation, Firebase, Microsoft Azure, API, Vercel ,VPS, Docker, Kubernetes

Frameworks: WordPress, Joomla, PrestaShop, Shopify, Stripe, PayPal, GitHub, NextJs

Management: Google Analytics, Adwords, Facebook Ads, Web Masters, etc

AI Tech Stack

Platforms: PineoneDB, Langchain, OpenAI, Vercel AI Sdk,

UX and UI Designer

Platforms: Adobe Photoshop, Sketch, Figma, Canva, Flutter wave

UI: Website Mock-ups, App Mock-ups, Infographics, Stylesheets, Logos

UX: Wireframing, Workflow Diagrams, Technical Specifications

Robust Tech Stack

Microsoft Office: Word, Excel, PowerPoint

Testing: Manual Testing, UAT, Performance Testing, Regression and End-to-end testing

CI/CD: GIT, GITHUB actions, Jenkins

Scripting Language: Bash, PowerShell, Yaml, Json

Additional Skill

Fluent Language: English

Soft Skills: Leadership and Team Player, Time Management, Digital Skills, Problem Solving, Teaching & Mentor, Excellent Communication, Project Management, Product Development and Upscaling.

Employment History

AI Training Engineer (Part-time) Outlier

2024 Aug– Current

- Trained AI models on diverse datasets, improving model accuracy and reliability.
- Generated high-quality training data in Large language model, and advancing AI capabilities
- Developed AI Model and Evaluated model performance, identifying areas for improvement and optimizing results.

Full Stack Developer Edygrad Private Ltd. [Link](#)

2023 Jun – Sep 2024

- Designed and developed software product solutions, ensuring performance, security, and scalability for diverse projects.
- Implement the client credentials grant type and limit access using OAuth 2.0 scopes in, along with implementation of Drupal developer portal with APIgee.
- Implemented DevOps practices in Cross-Platform development using CI/CD pipelines to automate the build and integrated Git with Azure Repos.
- Led the team in providing adequate software quality assurance by designing test cases, thoroughly executing test scenarios reporting bugs on all Clients' products to increase delivery time by 80%.

Software Specialist (Part-time) Bdnaturetech – Lagos – Nigeria

Feb 2021 – Jan 2022

- Build a scalable and innovative software, delivering exceptional user experiences and driving continuous growth and expansion using AI, Edge Runtime, and RAG drive innovation.
- Developed a fast performance and seamless navigation application and Provides secure authentication.
- Worked on optimizes data processing for AI workloads using NoSQL, and also use Langchain to enhances text analysis and generation, while I utilize the OpenAI to provides state-of-the-art AI capabilities of the application.

Back End Developer (Internship) Elakk Technologies. Hyderabad - India

Jun 2022 – Sep 2022

- Designed RESTful API endpoints using best practices for resource naming HTTP methods and implementing CRUD functionality to ensure data integration and security.
- Exposure to unit testing of applications using the Junit framework and understanding of writing and executing test cases.
- I achieved a matched skill of sensitive Data and adding XML support, this also help us in view of Mashing the client application Traffic and caching.
- Effective collaboration actively engaging with the front-end developers, ensured a cohesive integration between the API's functionality and the user interface.

Python Programming Language Instructor (Internship) Triluxo (Brainlox) Technologies. Uttar Pradesh - India

July 2021 – Sep 2021

- Assumed Teaching responsibility and guided a diverse group of 30 students at the intermediate level of programming language
- Provided a design guidance to students for various deployable projects showcasing desktop user interface development, database management, and machine learning. This involves utilizing frameworks like PyQt, employing database solutions such as SQLite, and implementing machine learning functionalities with TensorFlow, among other relevant tools and frameworks.

ATM Software Engineer Ark Technologies Group. Lagos - Nigeria

Aug 2018 – Nov 2020

- Provided technical support to external, and internal teams, via phone, email, or in-person.
- Write clean continuous software development and solutional code.
- Installed and configured the IIS web server on Microsoft Windows 2012, 2012R2 and 2016 servers.
- Deployed and managed various file server's backup servers and active directories for easy data administration and accessibility.
